Zermatt

Zermatt lies at the foot of the Matterhorn. The town's touristic development is closely linked to what is most probably the world's most famous mountain. The vacation destination is a car-free zone, has preserved its original character and offers nearly unlimited possibilities as far as excursions are concerned.

The location of Zermatt at the foot of the Matterhorn and in the middle of an enormous hiking and ski region makes it one of the world's most attractive vacation villages. The ski region encompasses 63 mountain railways and 360 kilometers of pistes. The region called "Matterhorn glacier paradise" is Europe's largest and highest lying summer skiing region. Numerous national ski teams train here in the summer.

The cog railway operates between Zermatt and the 3089-metre-high Gornergrat. The summit offers up spectacular views of the Matterhorn, the glaciers and the Monte-Rosa massif.
